

Information Science Academic Program Structure

This document outlines the structured academic program for the Information Science department. It is organized by academic year and semester and can also be used as a knowledge base for a university chatbot.

Freshman – After Freshman Requirement (Semester II Entry to Information Science)

- Computer Programming
- Entrepreneurship
- Emerging Technology
- Applied Mathematics
- Social Anthropology
- Moral and Civic Education
- Communication English Language Skills II

Second Year – Semester I

- Fundamentals of Database
- Advanced Computer Programming
- Discrete Mathematics and Combinatorics
- Principles of Accounting
- Introduction to Management
- Foundations of Information Systems and Society

Second Year – Semester II

- Advanced Database
- Object Oriented Database
- Economics
- Information Retrieval Systems
- Data Structures and Algorithms (DSA)
- Introduction to Statistics

Third Year – Semester I

- Introduction to System and Network
- Event Driven Programming
- Internet Programming
- Computer Architecture and Organization
- System Analysis and Design
- Basic Methods in Research

Third Year – Semester II

- System Administration and Networking
- Information System Security
- Object Oriented System Analysis and Design
- E■Commerce
- Mobile Computing
- Advanced Internet Programming

Fourth Year – Semester I

- Artificial Intelligence Fundamentals
- Distributed Systems
- Human Computer Interaction
- Information Systems Project Management
- Data Mining

Fourth Year – Semester II

- Senior Project / Capstone Project
- Internship / Industrial Attachment
- Information Systems Strategy
- Knowledge Management
- Final Research Thesis and Defense

Postgraduate Program – MSc in Information Science

- Advanced Information Retrieval
- Advanced Database Systems

- Data Science
- Machine Learning
- Big Data Analytics
- Information System Security
- Digital Libraries
- Information System Design
- Information Policy and Governance
- Research Methodology
- Master's Thesis Research and Defense
